

“Goal and Plan”

Planning is the active component of **beginning with the end in mind**. It is the first creation in your mind before physical creation. A goal is the end point and the plan explains how to get there. To be certain you can achieve your goals, break them down into manageable tasks with realistic deadlines. **The goal inspires you, but the deadline motivates you.** -

Stephen R. Covey, The 7 Habits of Highly Effective People

“Goal without a plan is just a DREAM”
