

“Big Picture and Small Picture”

“Awareness of whole and attention to details is success”

We have to see things in proper perspective. If we only look into the small details without the overall context and macro view, we will lose sight. At the same time, it is important to go into every minute detail at the microscopic level. Both are important to achieve success. The whole is the sum of the parts. When we refer to a healthy body, do we ignore the mind, or do we ignore the different parts of the body ?
