

Plan-Do-Check-Act (PDCA)

PDCA- World Class Organizations

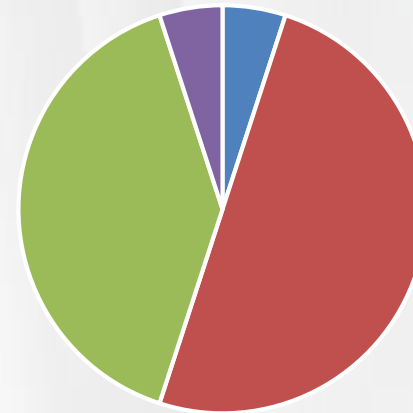

■ Plan ■ Do ■ Check ■ Act

World Class organizations invest more time in PLAN so that they can reduce time in other 3 phases significantly. This is applicable to New Product Development, Setting up Yearly Goals or Setting up a New plant etc.. This will enable them to become Efficient and Effective

Conventional Organizations invest very less or NO time for Planning and jump to execution. Many of them spend lots of time on Execution, Auditing, correction etc.. Instead of Prevention. Overall time will be more than double when compared to World Class organizations

PDCA- Traditional Organizations

■ Plan ■ Do ■ Check ■ Act
