Rubber stamp on hand baggage is no longer needed in many airports in India

## Over Processing

Putting Rubber Stamp at Security checks in Airport has been categorized as over processing.

Over-processing is one of the Seven Wastes as per Lean Thinking.

Hats off to the officials who came out of the paradigm of believing and enforcing this to be a value added activity.

From the user point of view, it was always Waste.

**Let us look back and check our processes and figure out.. how many are really Value Adding!!!?**

Proposal to eliminate rubber stamp on boarding passes are also being implemented.
